

Silicone Remover SPECTRAL EXTRA 785

Characteristics:

The **Silicone Remover SPECTRAL EXTRA 785** – mix of organic solvents which allows a fast and thorough cleaning of the surface from different contaminations, also from greases, oils, silicones, etc.

Application:

The **Silicone Remover SPECTRAL EXTRA 785** is a solvent specially developed for cleaning and degreasing of:

- steel surfaces,
- aluminium surfaces,
- galvanised steel,
- stainless steel,
- old paint coatings,
- plastics,
- fillers,
- polyester putties.

It removes silicones, oils and lubricants. The composition of the **Silicone Remover SPECTRAL EXTRA 785** is designed to prevent the occurrence of the so-called silicone craters.

Procedure:

The surface should be washed at least twice. A clean piece of cloth should be used each time. One should wait until the remover evaporates completely before the application of the coat.

Contents of volatile organic compounds (VOC):

VOC limit (cat. B/1) = 850g/L

VOC < 750g/L

Volatile organic compound (VOC) compliant with Directive UE 2004/42/CE of 21 April 2004.

Colour:

Colourless.

Storage time and condition:

Store in a dry, cool place, away from sources of fire and heat. Direct sunlight should be avoided.
24 months at a temperature of 20°C.

Industrial safety:

See Safety Data Sheet of this article.
